

# Hello!, I'm Patricio Correnti

**Designer + Developer = Killer combo \* 15 years of experience.**

I started working on websites as a full-stack developer at the time that "dynamic web" or "hypertext" where novel concepts.

I've faced Internet Explorer 6 and spent great moments with Flash.

I've worked on monolithic systems with years and years of code layers making incremental and iterative improvements.

Now I work for startups, on systems with modern architecture.

**And I'm always ready for the next challenge!**

## FEATURED EXPERIENCE

**Lune** - San Francisco, California, US (Remote).

Frontend Developer / Design consultant - Aug 2018 - Currently

Single page application developed in VueJS that gets connected with a restful API. [www.lune.co](http://www.lune.co)

**Educativa** - Rosario, Argentina.

Frontend Developer / Product designer / PM - Nov 2010 - Aug 2018

In charge of design and frontend development for e-learning platforms. Human talent management system for big sized enterprises.

**Identhya** - Rosario, Argentina.

Lead web developer - Mar 2009 - Oct 2010

I made a huge contribution in order to consolidate the studio as a web agency. We earn a golden award for best interactive piece in the Independent Advertising International Festival 2010 with this project:
